Discussion followed regarding the long ride preschooler would experience from the northern part of the county to South School; how federally funded programs come and go; 60 – 70 percent of the tax dollars come from the southern portion of Morgan County; economy has had an impact with a decline in enrollment; school district has not enforced the boundaries; and the importance of continuing to have South school as a part of our community.

The Board asked that a letter be written to the Morgan County R-II District in support of keeping the South School as an elementary school.
